

MULTINOX VE DUAL PUMP HIGH VOLUME WASH DOWN UNIT

SAVE TIME

INCREASE EFFICIENCY

IMPROVE HYGIENE

The system is based on two Multinox VE Vertical multistage pumps coupled in parallel and fitted with a pressure vessel and differential pressure switches. The pumps will switch on and off automatically on demand from the outlet hose nozzles and the pressure switches are set so that only one pump operates when demand is low and the second pump will cut in automatically as demand increases.

FLOW RATE	VE200/65	VE200/80
Maximum	400 lpm	400 lpm
At 2 bar	350	370
At 3 bar	300	330
At 4 bar	240	290
At 5 bar	160	240
At 6 bar		180
At 8 bar		

Performance measured at the pump outlet, friction losses in piping etc not taken into account.

Dual Multinox Vertical multistage pumps complete with:-

- Non return inlet valves
- Outlet manifold with union couplings & dual outlet valves
- Stainless steel pressure vessel
- Pressure gauge
- Dual pressure switches
- Splash proof control panel with mains isolating switch, individual pump isolating switches & dual motor starters with overload protection. Terminal for dry run protection float switch.

SINGLE PHASE

DUAL VE 200/65M (2 X 2KW) £1,575.00

THREE PHASE

DUAL VE 200/65T (2 x 2 KW) £1,575.00
 DUAL VE 200/80T (2 x 2.6 KW) £1,635.00

All prices are exclusive of VAT.
