

VARIABLE SPEED PLUG & PLAY PUMP

The future of pressure boosting e.sybox!

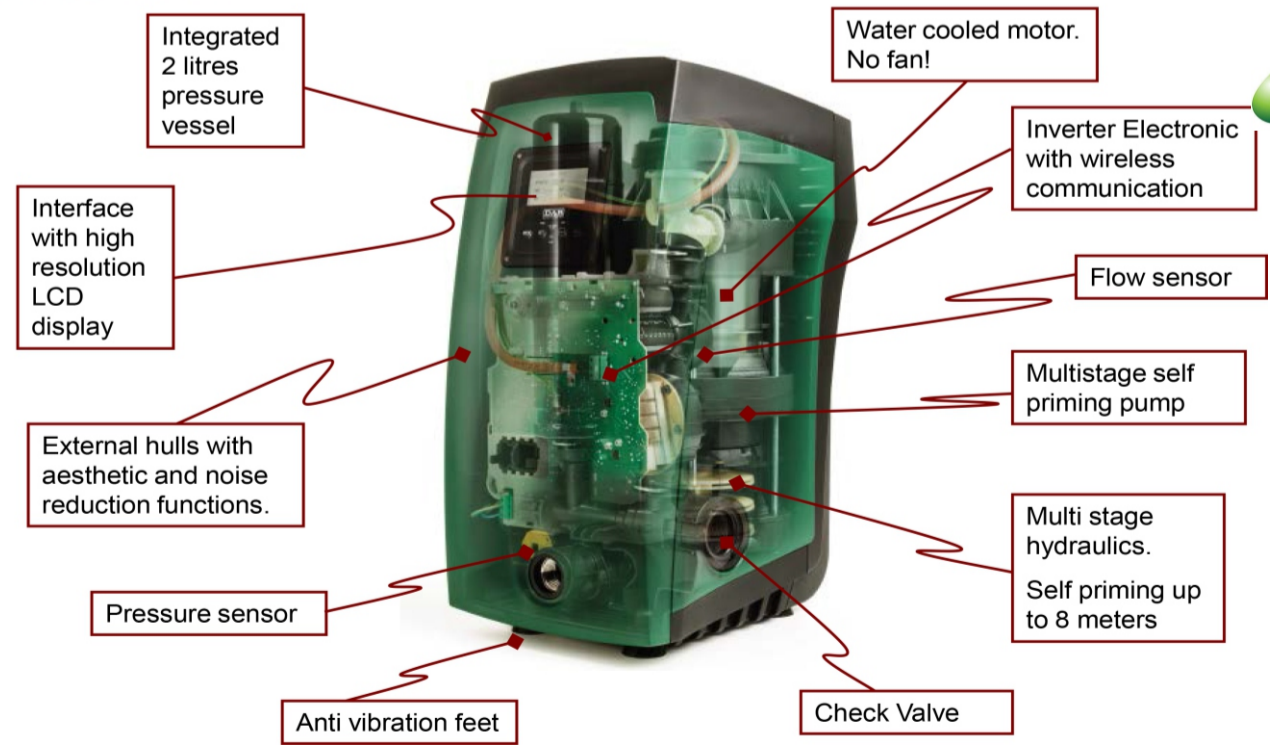

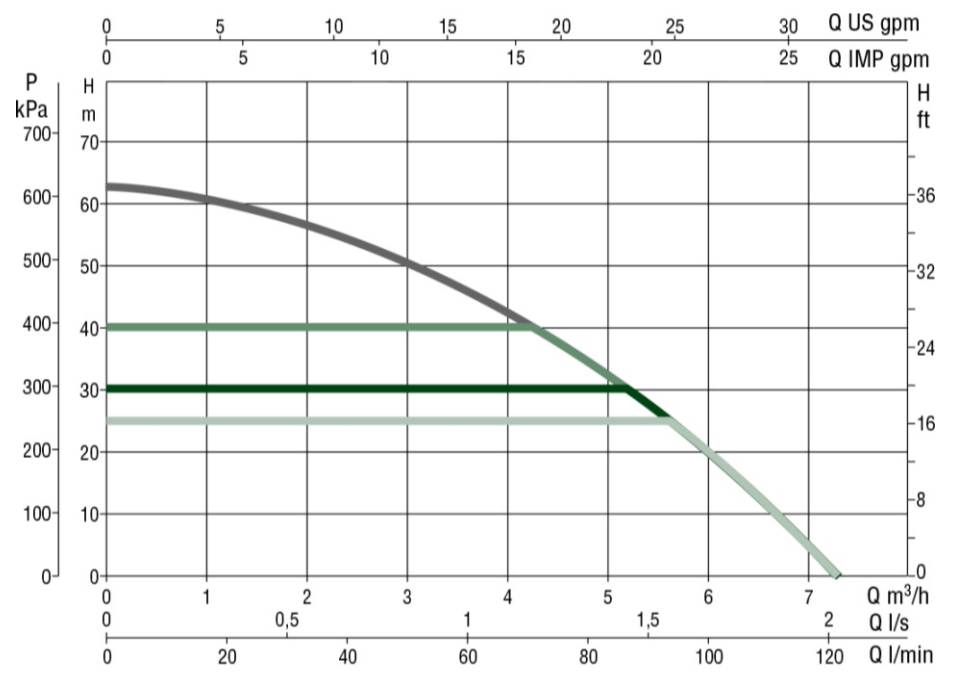

- Self priming** - sucks from a depth of 8 mtrs
- Up to 9 units can be coupled together** - for greater volumes of water.
- Quiet operation** - 45 dB
- Compact design** - 30% smaller than other variable speed pumps (can be fitted vertically or horizontally).
- Easy access** - for maintenance, all spare parts available.
- 2 year guarantee**

- Wireless communication** - In situations where you couple more than one unit together communication between pumps is via wireless.
- Built in dry run protection** - In the case of a lack of water the pump will stop automatically, once the water level is restored the pump will automatically re-start.
- Efficiency** - Thanks to the inverter the motor speeds up and slows down with demand, thus using less electricity providing a considerable economic saving of up to 50% on electricity bills.
- Performance** - Up to 80 L/pm

Thanks to the Inverter technology, e.sybox draws only the necessary energy according to water requirements, thereby avoiding wastes and allowing considerable economic savings.

ENERGY SAVING AREA

Comes complete with its own fast connection tool kit.
